SUMMARY

I am a web developer with two years of experience in developing web applications using Node.js and Laravel. I have a strong passion for creating efficient and effective solutions, and I thrive in fast-paced environments. I am adept at collaborating with cross-functional teams to ensure the timely delivery of high-quality projects.

EXPERIENCE

PT DIGDAYA INOVASI GEMILANG - Remote

Software Engineer (September 2022 – Present)

At PT Digdaya Companies, I contributed to cutting-edge projects as a Software Engineer. I developed and maintained robust web applications, specializing in Laravel and PostgreSQL. My role involved creating scalable solutions, optimizing databases, and ensuring the seamless deployment of applications on AWS EC2 instances..

PT INOSOFT - Remote

Web Developer (August 2022 – August 2023)

I was responsible for developing and maintaining the back-end of the website. I worked on creating web applications using PHP and MySQL, designing database structures to store data efficiently, writing APIs to integrate with third-party services, testing code for bugs and debugging them when necessary. My work also included bug fixes and feature implementation using Git version control system.

PT SAMBUNG DIGITAL INDONESIA - Remote

Nodejs Developer (January – December 2022)

I worked as a Nodejs Developer for 1 year. My responsibilities included developing backend applications using Nodejs and PostgreSQL, designing REST APIs for web services and managing deployment of applications in AWS cloud environment. Additionally, I also provided technical support to the development team and assisted in debugging issues faced during product rollout. Overall, it was an enriching experience that helped me hone my skills as a Backend Developer.
